

fenyaEDI - B2B Solution

fenyaEDI is an EDI platform that provides a broad spectrum of interoperability and integration between systems. The fenyaEDI platform is currently used in a wide variety of industries, processes and businesses for a number of different purposes.

Retail EDI Plugin

Our EDI platform provides a solution for suppliers and distributors to major retail outlets. Our fenyaEDI system effectively connects the customer and supplier, generating a direct and automated link between all parties involved.

fenyaEDI offers the following key features:

- **Direct Integration** - Customer orders are directly integrated into your ERP. Where necessary, electronic invoices can be uploaded to the customer.
- **Pricing Validation.**
- **Picking Slips** - *If you use 3rd party distributors, fenyaEDI can send them csv or pdf picking slips automatically.*
- **Store Mapping** - Map stores to specific accounts in your ERP.
- **Distributor Integration** - A new feature in our EDI platform - here we link your distributors to the EDI platform.
- **Statements/Invoices** - fenyaEDI provides electronic statements in the format required and uploads invoices once they are processed.

Currently our fenyaEDI solution is compatible with the following retailers:

- Pick n Pay
- Dischem
- Edcon
- Shoprite
- Foschini
- President Hyper

Our fenyaEDI solution is directly integrated with the following ERPs:

- **Sage** 50cloud (formerly Pastel Partner)
- **Sage** 300
- **Sage** Business Cloud Accounting (formerly SageOne)
- **JD Edwards**
- **Sage** 100 (formerly Sage Evolution Standard)
- **Xero** Accounting
- **Sage** 200 (formerly Sage Evolution Premium)
- **QuickBooks**

We are continuously adding retailers and ERPs to our list, contact us if you don't see your ERP or retailer on this list.
